Assembly Instructions

Remove Telescopic 1 from packaging

Open the swivel foot screw pole on to base

Remove the cap from one side of both top and bottom horizontal rails. Slide rail into doubler fitting

Twist top pole counter clockwise (do not twist plastic grip) too loosen. Adjust until able to slide pole up or down. Twist top pole (not plastic grip) clockwise to tighten.

Hook top loop of spring to hook on bottom graphic rail

Twist thumb screw at bottom of spring clockwise to raise or lower to adjust graphic tension. Twist counter clockwise to tighten. Repeat steps for double sided display.

Graphic fitting instructions: Unit comes with a plastic leader strip. Stick the plastic strip to the backside of the banner using double sided tape (not included.) Insert the mounted graphic through the middle of the rail allowing the graphic to run the width of the unit through the slit in the rail.
