Spring Back 6 comes complete with a storage bag. Remove the contents of the bag.

Insert the support pole into the leg hub as shown. Tighten slightly to hold the leg. Final adjustment will be made at the end.

Place the unit on the floor using the two legs and the support pole.

Lift the upper support arms into place.

Secure the position of the support pole by turning the tension screw clockwise. Be sure to not over tighten otherwise breakage may occur.

Mount the grommets, located on the bottom of the graphic, to the bottom hooks.

Mount the grommets, located on the top of the graphic, to the top hooks.

Each hook should be facing forward. The top hooks will point upwards while the bottom hooks will point downwards.

Your completed unit should have a slight back lean.
